### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

♦ The prior art of record neither anticipates nor renders obvious all the limitations recited in the base claim 1, including a method of making a plurality of electrically programmable memory elements, comprising the combination of the steps: forming a conductive layer on said sidewall surfaces and on the bottom surface of said opening; removing at least a portion of the conductive layer from the bottom surface; thereby electrically isolating portions of the conductive layer formed on the first and second sidewalls, one from the other; forming a second dielectric layer contacting the bottom surface of the opening; and forming a programmable resistance material in electrical communication with top portions of the electrically isolated portions of the conductive layer.

♦ The prior art of record neither anticipates nor renders obvious all the limitations recited in the base claims 20, 30, 41, and 47, including a method of making a plurality of electrically programmable memory elements, comprising the combination of the steps: forming a conductive layer on the sidewall surfaces and on a portion of the bottom surface, the portion being less than the entire bottom surface and thereby electrically isolating the conductive layer on the first sidewall surface from the conductive layer on the second sidewall surface; forming a dielectric material contacting the bottom surface of the opening; and forming a programmable resistance material in electrical communication with the conductive layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
